Subject: US DOL Grant for Free Automotive Training

To State Directors and Administrators:

Through a grant from the US Department of Labor-Employment and Training Administration, Melior is proud to provide FREE Automotive Instructor update training to all schools that are either NATEF certified or in the process of NATEF certification. This training will help schools meet the NATEF annual requirement of 20 hours instructor technical training.

Now, instead of incurring travel expenses and time away from the classroom, the "Upgrading the Nation's Automotive Programs" grant provides on-line access to this continuing education requirement through Melior. Automotive programs that are either NATEF certified or have applied for certification simply use their 6-digit NATEF I.D. for free access to the training from the Melior website. For access to this training and more information on the grant please visit: [www.upgrade2cert.org](http://www.upgrade2cert.org) or [www.melioronline.com](http://www.melioronline.com).

This grant was awarded by the U.S. Department of Labor-Employment and Training Administration to Gateway Technical College, Snap-on, Inc., The Foundation of the Wisconsin Automobile & Truck Dealers, NATEF/ASE, and Melior.

PLEASE PASS THIS INFORMATION ON TO THE SCHOOL ADMINISTRATORS AND AUTOMOTIVE INSTRUCTORS IN YOUR STATE.
